Safe Seal

The Safe Seal, with its patented magnetic auto open feature, can seal a compliance blister card in seconds while you're busy prepping the next one. Eliminate guesswork; you'll always know the pressure setting with the digital pressure display. The patented magnetic assist lock down provides maximum pressure so locking your machine down is effortless, delivering even heat and pressure edge to edge for a perfect application every time. For use with heat seal and reusable card systems.

Features include:

- **Patented, Magnetic Auto open feature**
- **3/4" thick coated upper platen**
- **Digital time and temperature controls**
- **Temp range 170° - 430° (76°-220° C)**
- **°F or °C available**

Dimensions: 26"H x 16"W x 21"D
Platen Size: 11"x15"
Shipping dimensions: 31"L x 21"W x 21"H
Shipping Weight: 72 lbs

ITEM NUMBER: 41-019

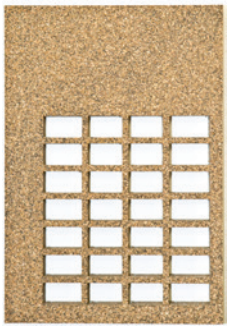

Pill Pak Platen Double Jumbo

Made of MDF with a cork surface. It is durable, light and easy to use. A strong, uniform seal is achieved on every card. This platen is used for both heat seal and pressure sensitive cards as well as bi-fold and tri-fold cards and will seal two Pill Pak cards or Pill Pak foil and blisters at a time.

Measurements: 14"W x 18"L (35.6 x 46 cm)

ITEM NUMBER: 40-003

Pill Pak Single Jumbo Platen

Made of durable cork material and is light and easy to use. A strong, uniform seal is achieved on every card. This platen is used in conjunction with the pressure sensitive cards only and will seal one card at a time.

Measurements: 6.75"W x 10"L (17.14 x 25.4 cm)

ITEM NUMBER: 4028SJ

Roller

A Speedball Rubber Brayer 4" roller that provides even seal pressure.

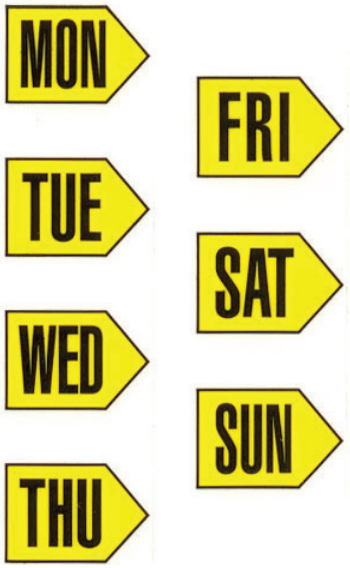

ITEM NUMBER: 36-016

Week 1 – 4 Pill Pak Label

Applied on the Pill Pak plastic card above the top row of medication cavities to indicate which week the medication in the blister columns below should be taken. Used when a 28-day compliance package is being prepared.

ITEM NUMBER: 511 - Roll of 100 English Labels

Monday – Sunday Pill Pak Label

Applied to the left-hand margin of the Pill Pak plastic card to indicate what day of the week the medication in the corresponding row of blisters should be taken. Used when a weekly or 28-day compliance package is being prepared.

ITEM NUMBER: 510 - Roll of 100 English Labels

Manrex Limited® offers many different styles of dispensers to meet the many different needs of patients in their home. All of our medication dispensers are designed to simplify and improve medication compliance.

Many of these devices provide a simple and cost effective alternative medication delivery system in assisted living facilities.

MEDICASE®

The **MediCase®** is an innovative approach to medication compliance in the community care setting. Designed with a protective lid, as well as tamper evident security seal, the MediCase® is easy to use; simply push on the seal to release the medications from their cup. No more spilled medications associated with hard, plastic boxes with sliding retainers.

The MediCase® is lightweight, easily transported and disposable so there is no risk of cross contamination or ending up with dirty containers. The individual dosage times are larger and deeper than most blister card systems allowing for greater medication storage capacity and the security seal keeps all the medications contained within their med-cup. The MediCase® is an ideal medication compliance device for the active elderly who take several medications, but need to do so on the go.

Careousel Advance Dispenser

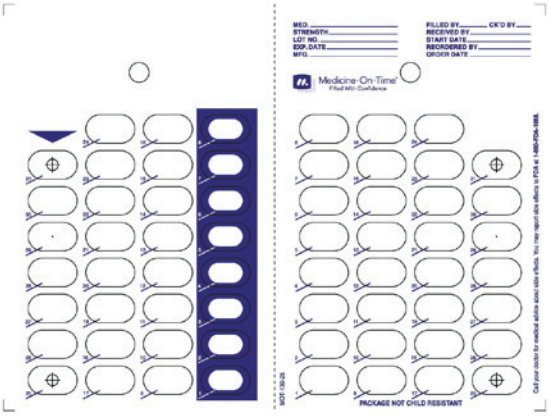

The Careousel is a fully automated, alarmed compliance device designed to help patients that can't remember to access their compliance packs.

Featuring a programmable alarm system coupled with an audible ring tone and flashing red light, the Careousel alerts the user, both with sound and visually that it is time to take their meds. At the right time, the medications for that time rotate to the dispensing point, the machine rings and flashes and the patient simply tips it over to release the pills. Only the pills for that time can be released.

Careousel provides the ultimate in compliance reminders and medication control for seniors with early forms of dementia or short term memory loss.

Items Used with Blister Systems

Pharmaclip 2

The plastic Pharmaclip 2 for 31 Day Cards. The tab in the center can be lifted to remove the card or to place the card in the off-center position as a reminder to the nurse in case a patient is not available to take his / her medication at the time of the medication pass or to turn the card over in case of a medication hold. Measurements: 2 5/8"H x 4 ¾"W (6.75 x 12 cm)

ITEM NUMBER: 1202 - Package of 25

Ribbed Pharmabin

The Pharmabin wide (ribbed) is made of a durable plastic. This bin holds up to 20 Pharmacards in an upright position and is an alternative to the Pharmafile system. It is uniquely designed to allow a space for each Pharmacard. When a Pharmacard is removed the nurse knows exactly where to replace it without sorting through the other Pharmacards. The ribs also prevent jamming or over crowding of the bins.

Measurements: 16 7/8"L x 4 7/8"H x 7½"W (42.19 x 12.19 x 18.75 cm)

ITEM NUMBER: 300B

Ribless Pharmabin

The Pharmabin wide (ribless) is made of durable plastic. This bin holds up to 40 Pharmacards in an upright position and is an alternative to the Pharmafile system.

ITEM NUMBER: 300

Items Used with Blister Systems

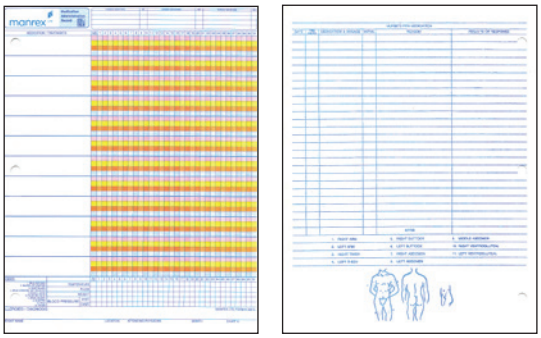

102 Green Order Form

The bilingual 102 Green Order Form is used to order repeat prescriptions. The top layer of the double-ply PCI® Prescription Label, taken from the prescription requiring refill, is affixed to the form, which in turn is sent to the pharmacy.

Measurements: 8 ½"W x 11"L (21.6 x 28 cm)

ITEM NUMBER: 70102 - Pad of 200 sheets

M.A.R. 1-part 12 Rx Laser Form

This M.A.R. 1-part 12 Rx Form is a continuous feed form with perforations between each sheet. The colour-coded Medication Administration Record has charting space for 31 days and 12 prescriptions. The back of the Medication Administration Record is used to record PRN administrations and injection sites. The colour coding corresponds with the Manrex Plastic Reusable Pharmacard for an added security check.

Measurements: 8 ½"W x 11"L (21.6 x 28 cm)

ITEM NUMBER: 2801 L BX - Box of 1000

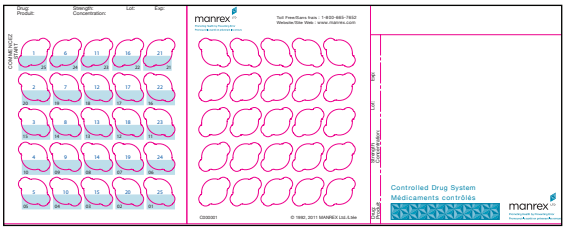

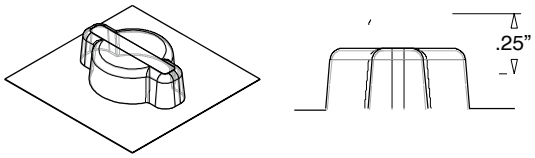

Pharmacard II

The bilingual orange Pharmacard II is a reminder card to remind the nurse to administer liquids, injectables, ointments, suppositories, etc. It is filed on the Pharmafile using a Pharmaclip or in a PRN bin. It is slightly longer than the Pharmacards so it is easily visible during a medication pass.

ITEM NUMBER: 702 - Package of 100 Cards

Controlled Drug System

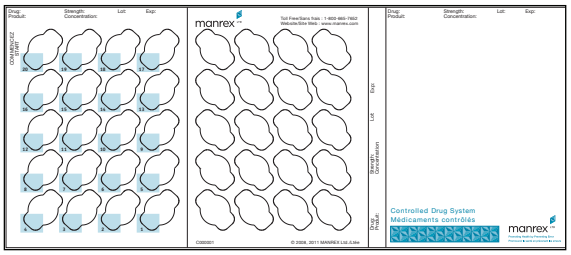

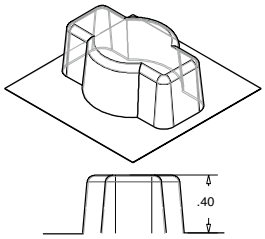

Controlled Drug System Heat Seal Kit

The Controlled Drug System kit includes 200 cards and blisters. The Controlled Drug Card is a 25-dose hermetically heat sealed blister package. The hinged spine allows the front cover to close over the blister to protect its integrity when not in use. The unique design of the blister allows pharmacy to package either tablet or capsule forms of controlled substances. The raised top edge of the card contains the drug detail which is quickly and easily identified. Available by kit of 200.
